Acumatica
The Cloud **ERP**

Rapid Implementation

Solver's QuickStart and Template Marketplace for Acumatica customers delivers the ultimate in time to value, by implementing reporting, planning, and analysis.

Integration

The QuickStart integration wizard provides immediate access to Acumatica data through a few simple prompts and a drag and drop interface, making key business data available.

Template Marketplace

Shop Solver's Template Marketplace for ready-to-use templates, built with design best practices and impactful layouts, so your data is presented in the right way for each audience. Solver's Template Marketplace includes the most in-demand templates requested by businesses, and is updated monthly with new models such as:

- Presentation-ready financial statements for all areas of the business
- Annual budget models and rolling forecasts for better prediction and timely updates
- Over 50 dashboards providing key insights into performance and trends

Deployment Agenda
